

Conference Website:

2018 4th International Conference on Robotics and Artificial Intelligence (ICRAI 2018) will be held in Guangzhou, China on November 17 - 19, 2018. ICRAI 2017 has been held successfully in Shanghai, China on December 29 - 31, 2017.

Keynote Speakes

Prof. Li, Han Xiong, IEEE Fellow, City University of Hong Kong, Hong Kong
Prof. Chun-Yi Su, Concordia University, Canada
Prof. Dong Hwa Kim, Hanbat National University, South Korea
Assoc. Prof. Jan Faigl, Czech Technical University (CTU), Czech Republic

Call for Papers

Topics of interest for submission include, but are not limited to

Aerial and underwater robotics	Network Robotics
Bio-inspired robots	Opto-mechatronics
Cable robots, cognitive robotics	Parallel robotics
Cognitive Approach for Robotics	Reconfigurable robots
Collaborative robotics	Robot calibration
Collective and Social Robots	Robot control
Control and Supervision Systems	Robot Design, Development and Control
Human-Robots Interfaces	Robotic platforms
Humanoid Robots	Robust control and Process control
Mobile Robots and Intelligent Autonomous Systems	Service and field robotics
Intelligent robotics and systems	Social robotics
Legged robots, manipulation	Vision, Recognition and Reconstruction
Mechatronics systems	Probabilistic robotics

2018年第四届机器人与人工智能国际会议, 将于**2018年11月17-19日**在中国广州举行

ICRAI 2017 去年已成功在中国上海华东理工大学召开, 会议旨在促进该领域的学术交流与合作, 热忱欢迎从事相关技术的专家, 学者和专业技术人员踊跃投稿。

本次会议所有文章将由程序委员会严格审核, 被录用的文章将出版到 International Conference Proceedings Series by ACM (ISBN: 978-1-4503-6584-0)会议论文集, 并且送检***Ei Compendex***, ***Scopus***. ICRAI 2017 论文集目前已经被***Ei Compendex***, ***Scopus***检索。

专家报告

李涵雄教授, IEEE 院士, 香港城市大学

Chun-Yi Su 教授, 加拿大康科迪亚大学

Dong Hwa Kim 教授, Hanbat National University, South Korea

Jan Faigl 教授, Czech Technical University (CTU), Czech Republic

征稿启事

Aerial and underwater robotics
Bio-inspired robotics
Cable robots, cognitive rob
Cognitive Approach for Robotics
Collaborative robotics
Collective and Social Robots
Control and Supervision Systems
Humanoid Robots
Motion planning and learning
Network Robotics
Opto-mechatronics
Intelligent robotics and systems
Legged robots, manipulation
Mechatronics systems
Micro- and nano-robots
Mobile Robots
Intelligent Autonomous Systems
Robot control
Robust control and Process control
